An act to add Division 112 (commencing with Section 140000) to the Health and Safety Code, relating to health care coverage.

#### LEGISLATIVE COUNSEL'S DIGEST

SB 921, as amended, Kuehl. Single payer health care coverage.

Existing law does not provide a system of universal health care coverage for California residents. Existing law provides for the creation of various programs to provide health care services to persons who have limited incomes and meet various eligibility requirements. These programs include the Healthy Families Program administered by the Managed Risk Medical Insurance Board, and the Medi-Cal program administered by the State Department of Health Services. Existing law provides for the regulation of health care service plans by the

Department of Managed Health Care and health insurers by the Department of Insurance.

~~This bill would declare the intent of the Legislature to implement a single payer universal health care delivery system in California and would make legislative findings and declarations establish the California Health Care System to be administered by the newly created California Health Care Agency under the control of an elected Health Care Commissioner. The bill would make all California residents eligible for specified health care benefits under the California Health Care System, which would, on a single-payer basis, negotiate for or set fees for health care services provided through the system and pay claims for those services. The bill would prohibit deductibles or copayments during the initial first 2 years of operation of the health care system, but would authorize the commissioner to establish deductibles and copayments thereafter. The bill would require the health care system to be operational by January 1, 2006, and would enact various transition provisions. The bill would require the commissioner to seek all necessary waivers, exemptions, agreements, or legislation to allow various existing federal, state, and local health care payments to be paid to the California Health Care System, which would then assume responsibility for all benefits and services previously paid for with those funds.~~

*The bill would create a Health Policy Board to establish policy on medical issues and various other matters relating to the health care system. The bill would create the Office of Consumer Advocacy within the agency to represent the interests of health care consumers relative to the health care system. The bill would create the Office of Medical Practice Standards within the agency, headed by the chief medical officer, to establish standards of best medical practice, including evaluation of pharmaceuticals and medical and surgical treatment, and in conjunction with that office, would create the Medical Practice Standards Advisory Board with specified advisory duties. The bill would create the Office of Inspector General for the California Health Care System within the Attorney General's office, which would have various oversight powers. The bill would extend the application of certain insurance fraud laws to providers of services and products under the health care system, thereby imposing a state-mandated local program by revising the definition of a crime. The bill would enact other related provisions relative to budgeting, federal preemption, subrogation, collective bargaining agreements, and associated matters.*

*The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.*

*This bill would provide that no reimbursement is required by this act for a specified reason.*

Vote: majority. Appropriation: no. Fiscal committee: ~~no~~ yes.  
State-mandated local program: ~~no~~ yes.

*The people of the State of California do enact as follows:*

~~SECTION 1. Division 112 (commencing with Section~~  
SECTION 1. Division 112 (commencing with Section 140000)  
is added to the Health and Safety Code, to read:

DIVISION 112. CALIFORNIA HEALTH CARE SYSTEM

CHAPTER 1. GENERAL PROVISIONS

140000. There is hereby established in state government the California Health Care System, which shall be administered by the California Health Care Agency, an independent agency under the control of the Health Care Commissioner.

140001. This division shall be known as and may be cited as the Health Care for All Californians Act.

140002. This division shall be liberally construed to accomplish its purposes.

140003. The California Health Care Agency is hereby designated as the single state agency with full power to supervise every phase of the administration of the California Health Care System and to receive grants-in-aid made by the United States government or by the state in order to secure full compliance with the applicable provisions of state and federal law.

140004. The California Health Care Agency shall be comprised of the following entities:

(a) The Health Policy Board.

(b) The Office of Consumer Advocacy.

(c) The Office of Medical Practice Standards.

140005. The Legislature finds and declares all of the following:

- 1     (a) More than 6 million Californians lacked health insurance  
2 coverage at some time in 2001 and 3.6 million had no health  
3 insurance coverage at any time.
- 4     (b) Since 2001, the number of uninsured Californians has risen  
5 significantly.
- 6     (c) More than 10 million Californians have no coverage for  
7 prescription drugs. Millions of Californians lacking prescription  
8 drug coverage are otherwise insured.
- 9     (d) Efforts to control health care costs and growth of health  
10 care spending have been unsuccessful.
- 11    (e) Employers, retirement funds, and unions that offer and  
12 negotiate for health insurance and benefits and individuals who  
13 purchase health insurance are experiencing substantial increases  
14 in health care costs and decreases in health care benefits.
- 15    (f) Unstable and unaffordable rate increases have caused  
16 significant economic hardship for California residents and their  
17 employers.
- 18    (g) Nearly 63 percent of all personal bankruptcies in the United  
19 States are the result of health care costs.
- 20    (h) California does not perform well on standard health  
21 outcome measurements.
- 22    (i) Unacceptable health access disparities exist by region,  
23 ethnicity, income, and gender.
- 24    (j) Eleven of California's rural counties have no health  
25 maintenance organizations that provide coverage to the county on  
26 a countywide basis and 21 rural counties no longer have a  
27 Medicare+Choice HMO.
- 28    (k) More than 80 percent of all Medi-Cal and uninsured patient  
29 visits to emergency facilities are for conditions that could have  
30 been treated in a nonemergency setting.
- 31    (l) Emergency departments and trauma centers face growing  
32 financial losses.
- 33    (m) Advances in medical technology are not available to all  
34 Californians who need them.
- 35    (n) Health care providers express significant professional  
36 dissatisfaction with the current health care systems, as do health  
37 care consumers.
- 38    (o) The California Medical Association found in 2001 that  
39 uncompensated care totaled five hundred forty million dollars  
40 (\$540,000,000). Uncompensated care has caused 60 emergency

1 departments (15 percent of the departments in the state) to close  
2 since 1990.

3 (p) The California Medical Association found in January of  
4 2001 that increasing patient volume and a decline in the number  
5 of emergency rooms have made multiple hour waits for emergency  
6 care the norm and that ambulance diversion is becoming a  
7 common method of dealing with emergency department  
8 overcrowding. These developments pose significant dangers for  
9 both insured and uninsured Californians.

10 (q) A quantitative analysis performed by the independent  
11 economic consulting firm, Lewin Inc., indicated that under a  
12 single payer health insurance system, California could afford to  
13 cover all California residents at no new cost to the state.

14 (r) According to the same report and numerous other studies,  
15 by simplifying administration, achieving bulk purchase discounts  
16 on pharmaceuticals, and reducing the use of emergency facilities  
17 for primary care, California could divert billions of dollars toward  
18 providing direct health care and improved quality and access.

19 140006. This division shall have all of the following purposes:

20 (a) To provide universal and affordable health care coverage  
21 for all California residents.

22 (b) To provide California residents with an extensive benefit  
23 package that includes prescription drugs.

24 (c) To control health care costs and the growth of health care  
25 spending.

26 (d) To achieve measurable improvement in health care  
27 outcomes.

28 (e) To increase provider, consumer, employee, and employer  
29 satisfaction with the health care system.

30 (f) To implement policies that strengthen and improve  
31 culturally and linguistically sensitive care.

32 (g) To develop an integrated health care database to support  
33 health care planning.

34 140007. As used in this division, the following terms have the  
35 following meanings:

36 (a) "Agency" means the California Health Care Agency.

37 (b) "Commissioner" means the Health Care Commissioner.

38 (c) "System" or "health care system" means the California

32 them by the commissioner. The commissioner shall designate  
33 certain employees by rule or order that are to take and subscribe  
34 to the constitutional oath of office within 15 days after their

20  
21 Article 1. General Provisions

22  
23 140200. (a) *In order to support the agency effectively in the*  
24 *administration of this division, there is hereby established in the*  
25 *State Treasury the Health Care Fund. The fund shall be*  
26 *administered by a director, appointed by the commissioner.*

27 (b) *All moneys collected, received, and transferred pursuant to*  
28 *this division shall be transmitted to the State Treasury to be*  
29 *deposited to the credit of the Health Care Fund for the purpose of*  
30 *financing the California Health Care System.*

31 (c) *All claims for health care services rendered shall be made*

36 *establish the following accounts within the Health Care Fund:*

37 (1) *A system account to provide for all annual state*  
38 *expenditures for the health care system.*

39 (2) *A reserve account to protect the system from unforeseen*  
40 *costs.*

1     (b) During the first five years of the operation of the system, the  
2     director shall maintain a reserve account that equals, at minimum,  
3     5 percent of the system's budget. After five years of the system's  
4     operation, the director, at the request of the commissioner, may  
5     reduce the minimum reserve requirement to 3 percent of the  
6     system's budget.

7     (c) The director of the Health Care Fund shall immediately  
8     notify the commissioner when annual costs appear to exceed  
9     annual revenues. The commissioner shall determine the cause of  
10    excessive costs and implement cost control measures.

11    (d) The commissioner shall seek either a special appropriation  
12    or an increase in health care taxes if cost control measures are  
13    insufficient to maintain the system.

14    (e) If, on June 30 of any year, the Budget Act for the fiscal year  
15    beginning on July 1 has not been enacted, all moneys in the reserve  
16    account of the Health Care Fund shall be used to implement this  
17    division until funds are available through the Budget Act.

18    (f) Notwithstanding any other provision of law and without  
19    regard to fiscal year, if the annual State Budget is not enacted by  
20    June 30 of any fiscal year preceding the fiscal year to which the  
21    budget would apply and if the commissioner determines that funds  
22    in the reserve account are depleted, the following shall occur:

23    (1) The Controller shall annually transfer from the General  
24    Fund, in the form of one or more loans, an amount not to exceed  
25    a cumulative total of one billion dollars (\$1,000,000,000) in any  
26    fiscal year, to the Health Care Fund for the purpose of making  
27    payments to providers of health care services.

28    (2) Upon enactment of the annual Budget Act in any fiscal year  
29    to which paragraph (1) applies, the Controller shall transfer all  
30    expenditures and unexpended funds loaned to the Health Care  
31    Fund to the appropriate Budget Act item.

32    (3) The amount of any loan made pursuant to subdivision (a)  
33    and for which moneys were expended from the Health Care Fund  
34    shall be repaid by debiting the appropriate Budget Act item in  
35    accordance with the procedure prescribed by the Department of  
36    Finance.

37    140202. (a) The commissioner shall prepare the annual state  
38    budget for health care. The budget shall specify and set a limit on  
39    total annual state expenditures for health care provided pursuant

- 8     (4) A purchasing budget.
- 9     (5) A research and innovation budget.
- 10    (6) A workforce development budget.

- 12    consider anticipated increased expenditures and savings,
- 13    including, but not limited to, the following:
- 14    (1) Projected increases in expenditures due to improved access
- 15    for underserved populations and improved reimbursement for
- 16    primary care.

- 18    mechanism.
- 19    (3) Projected savings in prescription drug expenditures under
- 20    competitive bidding and a single buyer.

- 23    140203. (a) The system budget shall be comprised of the cost
- 24    of the system, including the cost of services and benefits provided,
- 25    administration, data gathering, planning, and other activities, and
- 26    revenues deposited with the system account.
- 27    (b) The commissioner shall limit administrative costs to 5
- 28    percent and shall annually evaluate methods to reduce
- 29    administrative costs and report the results of that evaluation to the
- 30    Legislature.
- 31    (c) The commissioner shall limit growth of health care costs in
- 32    the system budget by reference to changes to state gross domestic
- 33    product, population, employment rates, and other demographic
- 34    indicators, as appropriate.
- 35    (d) Moneys in the Reserve Account shall not be considered as
- 36    available revenues for purposes of preparing the system budget.
- 37    140204. (a) The facility and provider budgets shall include
- 38    allocations for each of the following:
- 39    (1) Fee-for-service providers.

4 (b) *Providers and facilities shall choose whether they will be*  
5 *recompensed as fee-for-services providers or as part of a capitated*  
6 *provider network. The commissioner shall prohibit charges to the*  
7 *system for medical services other than those established by*  
8 *regulation or negotiation.*

9 (c) *The allocations in subdivision (a) shall consider the relative*  
10 *usage of fee-for-service providers, capitated providers, and health*  
11 *facilities and associated clinics that are not part of a capitated*  
12 *provider network.*

13 (d) *The provider and facility budget shall be adjusted annually*  
14 *to reflect changes in the utilization of services, changes in any*  
15 *copayment or deductible payment for covered services, and the*  
16 *addition or exclusion of covered services made by the*  
17 *commissioner upon the recommendation of the Medical Practice*  
18 *Standards Advisory Board.*

19 (e) *No provider may charge or receive any payments for*  
20 *covered services except those provided for under this division.*

21 (f) *Licensed health care providers who provide services not*  
22 *covered by this division may charge patients for those services.*

23 140205. (a) *The budget for fee-for-service providers shall be*  
24 *divided among categories of licensed health care providers, in*  
25 *order to establish a total annual budget for each category. Each*  
26 *of these category budgets shall be sufficient to cover all included*  
27 *services anticipated to be required by eligible individuals choosing*  
28 *fee-for-service at the rates negotiated or set by the commissioner,*  
29 *except as necessary for cost containment purposes pursuant to*  
30 *Section 140212.*

31 (b) *The commissioner shall negotiate fee-for-service*  
32 *reimbursement rates or salaries for licensed health care providers.*  
33 *In the event negotiations are not concluded in a timely manner, the*  
34 *commissioner shall establish the reimbursement rates.*  
35 *Reimbursement rates shall reflect the goals of the system.*

36 140206. (a) *The budget shall encompass all operating*  
37 *expenses for health facilities or clinics that are not part of a*  
38 *capitated provider network. In establishing a facility budget, the*  
39 *commissioner shall develop and utilize separate formulae that*  
40 *reflect the differences in cost of primary, secondary, and tertiary*

1 care services and health care services provided by academic  
2 medical centers.

3 (b) The commissioner shall negotiate facility reimbursement  
4 rates with facilities and clinics. Reimbursement rates shall reflect  
5 the goals of the system.

6 140207. (a) The budget for capitated providers shall be  
7 sufficient to cover all eligible individuals choosing an integrated  
8 health care delivery system at the rates negotiated or set by the  
9 commissioner.

10 (b) The commissioner shall prepare an annual operating  
11 budget for all care provided by facilities, group practices, and  
12 integrated health care systems, including the labor costs of  
13 providing care. All facilities, group practices, and integrated  
14 health care systems shall submit annual operating budget requests  
15 to the commissioner and may choose to be reimbursed through a  
16 global facility budget or on a capitated basis.

17 (c) The commissioner shall adjust budgets on the basis of the  
18 health risk of enrollees, the scope of services provided, proposed  
19 innovative programs that improve quality, workplace safety,  
20 consumer, provider and employee satisfaction, costs of providing  
21 care for nonmembers, and an appropriate operating margin.

22 (d) Providers and facilities that choose to operate a facility on  
23 a capitated basis shall not be paid additionally on a fee-for-service  
24 basis unless they are providing services in a separate private  
25 medical practice or facility.

26 (e) Facilities and providers that operate on a capitated basis  
27 shall report immediately any projected operating deficits to the  
28 commissioner. The commissioner shall determine whether the  
29 projected deficits reflect appropriate increases in health care  
30 needs, in which case the commissioner shall adjust the facility  
31 budget appropriately. If the commissioner determines that the  
32 deficit is not justifiable, no adjustment shall be made.

33 (f) The commissioner may terminate the funding for facilities,  
34 group practices, and integrated health care systems or particular  
35 services provided by them if they fail to meet standards of care and  
36 practice established by the commissioner. The commissioner shall  
37 make future funding contingent on measurable improvements in  
38 quality of care and health care outcomes.

39 140208. (a) The commissioner, with the advice of the Health  
40 Policy Board, shall establish an annual budget for capital

1 maintenance and development, determine capital investment  
2 priorities, and evaluate whether the capital investment program  
3 has improved access to services and has eliminated redundant  
4 capital investments.

5 (b) All capital investments valued at five hundred thousand  
6 dollars (\$500,000) or greater, including the costs of studies,  
7 surveys, design plans and working drawing specifications or other  
8 activities essential to planning and execution of capital  
9 investment, or capital investment that changes the bed capacity of  
10 a facility or adds a new service or license category incurred by any  
11 health system entity shall require the approval of the commissioner.

12 (c) When a health facility, or individual acting on behalf of a  
13 health facility, or any other purchaser, obtains by lease or  
14 comparable arrangement, any facility or part thereof, or any  
15 equipment for a facility, the market value of which would have  
16 been a capital expenditure, the lease or arrangement shall be  
17 considered a capital expenditure for purposes of this division.

18 (d) Health care facilities shall provide the commissioner with  
19 three months' advance notice of planned capital investments of  
20 more than fifty thousand dollars (\$50,000) but less than five  
21 hundred thousand dollars (\$500,000). These capital investments  
22 shall minimize unneeded expansion of facilities and services based  
23 on the priorities and goals for capital investment established by the  
24 commissioner.

25 (e) No capital investment may be undertaken using funds from  
26 a facility operating budget.

27 (f) The costs of mandatory earthquake retrofits to health  
28 facilities shall not be the responsibility of the system.

29 140209. The commissioner shall establish a budget for the  
30 purchase of prescription drugs and durable and nondurable  
31 medical equipment for the system. The commissioner shall  
32 purchase all prescription drugs and durable and nondurable  
33 medical equipment for the system from this budget.

34 140210. The commissioner shall establish a budget to support  
35 research and innovation that has been recommended by the  
36 commissioner, the Health Policy Board, the chief medical officer,  
37 and the consumer advocate. This research and innovation  
38 includes, but is not limited to, methods of improving the  
39 administration of the system, improving the quality of health care,

1 educating patients, and improving communication among health  
2 care providers.

3 140211. The commissioner shall establish a budget to support  
4 the development and training of a health system workforce  
5 sufficient to meet the health care needs of the population. The  
6 commissioner shall give special consideration for training to  
7 workers who may have been displaced from employment due to the  
8 inception of the system.

9 140212. (a) The commissioner shall implement cost controls  
10 pursuant to subdivision (c) of Section 140201. No cost control  
11 measure shall limit access to care that is needed on an emergency  
12 basis or that is determined by a patient's provider to be medically  
13 appropriate for a patient's condition.

14 (b) Mandatory cost control measures shall include, but not be  
15 limited to, some or all of the following:

16 (1) Postponement of introduction of new benefits or benefit  
17 improvements.

18 (2) Postponement of new capital investment.

19 (3) Adjustment of provider budgets to correct for inappropriate  
20 provider utilization.

21 (4) Limitations on provider reimbursement above a specified  
22 amount of aggregate billing.

23 (5) Deferred funding of the Reserve Account.

24 (6) Establishment of a limit on aggregate reimbursements to  
25 pharmaceutical manufacturers.

26 (7) Imposition of copayments or deductible payments pursuant  
27 to provisions of Section 140504.

28 (8) Imposition of an eligibility waiting period in the event of  
29 substantial influx of individuals into the state for purpose of  
30 obtaining health care through the system.

## 31 Article 2. Governmental Payments

32  
33 140240. The commissioner shall seek all necessary waivers,  
34 exemptions, agreements, or legislation, so that all current federal  
35 payments to the state for health care shall be paid directly to the  
36 California Health Care System, which shall then assume  
37 responsibility for all benefits and services previously paid for by  
38 the federal government with those funds. In obtaining the waivers,  
39 exemptions, agreements, or legislation, the commissioner shall  
40

1 *seek from the federal government a contribution for health care*  
2 *services in California that shall not decrease in relation to the*  
3 *contribution to other states as a result of the waivers, exemptions,*  
4 *agreements, or legislation.*

5 *140241. The commissioner shall seek all necessary waivers,*  
6 *exemptions, agreements, or legislation, so that all current state*  
7 *payments for health care shall be paid directly to the system, which*  
8 *shall then assume responsibility for all benefits and services*  
9 *previously paid for by state government with those funds. In*  
10 *obtaining the waivers, exemptions, agreements, or legislation, the*  
11 *commissioner shall seek from the Legislature a contribution for*  
12 *health care services that shall not decrease in relation to state*  
13 *government expenditures for health care services in the year that*  
14 *this division was enacted, corrected for change in state gross*  
15 *domestic product, the size and age of population, and the number*  
16 *of residents living below the federal poverty level.*

17 *140242. The commissioner shall seek all necessary waivers,*  
18 *exemptions, agreements, or legislation, so that all current county*  
19 *or other local government agency payments for direct health care*  
20 *to residents, as well as employee health benefits and health*  
21 *benefits for retired employees, shall be paid directly to the system,*  
22 *which shall then assume responsibility for all benefits and services*  
23 *previously paid for by a county or local government agency with*  
24 *those funds. In obtaining the waivers, exemptions, agreements, or*  
25 *legislation, the commissioner shall seek contributions for health*  
26 *care services that shall not decrease in relation to expenditures for*  
27 *health care services in the year of passage of the division,*  
28 *corrected for change in gross domestic product, the size and age*  
29 *of population, and the number of residents living below the federal*  
30 *poverty level.*

31 *140243. The system's responsibility for providing care shall*  
32 *be secondary to existing federal, state or local governmental*  
33 *programs for health care services to the extent that funding for*  
34 *these programs are not transferred to the Health Care Fund or that*  
35 *the transfer is delayed beyond the date on which initial benefits are*  
36 *provided under the system.*

37 *140244. In order to minimize the administrative burden of*  
38 *maintaining eligibility records for programs transferred to the*  
39 *system, the commissioner shall strive to reach an agreement with*  
40 *federal, state, and local governments in which their contributions*

1 to the Health Care Fund shall be fixed to the rate of change of the  
2 state gross domestic product, the size and age of population, and  
3 the number of residents living below the federal poverty level.

4 140245. If, and to the extent that, federal law and regulations  
5 allows the transfer of Medi-Cal funding to the system, the  
6 commissioner shall pay all premiums, deductible payments, and  
7 coinsurance for qualified Medicare beneficiaries who are  
8 receiving benefits pursuant to Chapter 3 (commencing with  
9 Section 12000) of Part 3 of Division 9 of the Welfare and  
10 Institutions Code.

11 140246. In the event and to the extent that the commissioner  
12 obtains authorization to incorporate Medicare revenues into the  
13 Health Care Fund, Medicare Part B payments that previously were  
14 made by individuals or the commissioner shall be paid by the  
15 system for all individuals eligible for both the system and the  
16 Medicare program.

17  
18 Article 3. Federal Preemption  
19

20 140300. (a) The commissioner shall pursue all reasonable  
21 means to secure a repeal or a waiver of any provision of federal law  
22 that preempts any provision of this division.

23 (b) In the event that a repeal or a waiver cannot be secured, the  
24 commissioner shall exercise his or her powers to promulgate rules  
25 and regulations, or seek conforming state legislation, consistent  
26 with federal law, in an effort to best fulfill the purposes of this  
27 division.

28 140301. (a) To the extent permitted by federal law, an  
29 employee entitled to health or related benefits under a contract or  
30 plan which, under federal law, preempts provisions of this division,  
31 shall first seek benefits under that contract or plan before receiving  
32 benefits from the system under this division.

33 (b) No benefits shall be denied under the system created by this  
34 division unless the employee has failed to take reasonable steps to  
35 secure like benefits from the contract or plan, if those benefits are  
36 available.

37 (c) Nothing in this section shall preclude an employee from  
38 receiving benefits from the system under this division that are  
39 superior to benefits available to the employee under the contract  
40 or plan.

1     (d) Nothing in this division is intended, nor shall this division  
2     be construed, to discourage recourse to contracts or plans that are  
3     protected by federal law.

4     (e) To the extent permitted by federal law, a provider shall first  
5     seek payment from the contract or plan, before submitting bills to  
6     the health care system.

7  
8                     Article 4. Subrogation  
9

10    140320. (a) It is the intent of this division to establish a single  
11    public payer for all health care in the State of California. However,  
12    until such time as the role of all other payers for health care have  
13    been terminated, health care costs shall be collected from  
14    collateral sources whenever medical services provided to an  
15    individual are, or may be, covered services under a policy of  
16    insurance, health care service plan, or other collateral source  
17    available to that individual, or for which the individual has a right  
18    of action for compensation to the extent permitted by law.

19    (b) As used in this article, the term collateral source includes  
20    all of the following:

21    (1) Insurance policies written by insurers, including the  
22    medical components of automobile, homeowners, and other forms  
23    of insurance.

24    (2) Health care service plans and pension plans.

25    (3) Employers.

26    (4) Employee benefit contracts.

27    (5) Government benefit programs.

29    (7) Any third party who is or may be liable to an individual for  
30    health care services or costs.

31    (c) The term collateral source does not include either of the  
32    following:

33    (1) A contract or plan subject to federal preemption.

34    (2) Any governmental unit, agency or service, to the extent that  
35    subrogation is prohibited by law. An entity described in  
36    subdivision (b) is not excluded from the obligations imposed by  
37    this article by virtue of a contract or relationship with a  
38    governmental unit, agency, or service.

1 (d) *The commissioner shall attempt to negotiate waivers, seek*  
2 *federal legislation, or make other arrangements to incorporate*  
3 *collateral sources in California into the health care system.*

4 140321. *Whenever an individual receives health care services*  
5 *under the system and he or she is entitled to coverage,*  
6 *reimbursement, indemnity, or other compensation from a*  
7 *collateral source, he or she shall notify the health care provider*  
8 *and provide information identifying the collateral source, the*  
9 *nature and extent of coverage or entitlement, and other relevant*  
10 *information. The health care provider shall forward this*  
11 *information to the commissioner. The individual entitled to*  
12 *coverage, reimbursement, indemnity, or other compensation from*  
13 *a collateral source shall provide additional information as*  
14 *requested by the commissioner.*

15 140322. (a) *The system shall seek reimbursement from the*  
16 *collateral source for services provided to the individual, and may*  
17 *institute appropriate action, including suit, to recover the*  
18 *reimbursement. Upon demand, the collateral source shall pay to*  
19 *the Health Care Fund the sums it would have paid or expended on*  
20 *behalf of the individual for the health care services provided by the*  
21 *system.*

22 (b) *In addition to any other right to recovery provided in this*  
23 *article, the commissioner shall have the same right to recover the*  
24 *reasonable value of benefits from a collateral source as provided*  
25 *to the Director of Health Services by Article 3.5 (commencing with*  
26 *Section 14124.70) of Chapter 7 of Part 3 of Division 9, in the*  
27 *manner so provided.*

28 140323. (a) *If a collateral source is exempt from subrogation*  
29 *or the obligation to reimburse the system as provided in this*  
30 *article, the commissioner may require that an individual who is*  
31 *entitled to medical services from the source first seek those services*  
32 *from that source before seeking those services from the system.*

33 (b) *To the extent permitted by federal law, contractual retiree*  
34 *health benefits provided by employers shall be subject to the same*  
35 *subrogation as other contracts, allowing the health care system to*  
36 *recover the cost of services provided to individuals covered by the*  
37 *retiree benefits, unless and until arrangements are made to*  
38 *transfer the revenues of the benefits directly to the health care*  
39 *system.*

(c) In the event of unanticipated expenditures in excess of \_\_\_\_\_, or if cost control mechanisms indicated under \_\_\_\_\_ are unable to lower expenditures without endangering the health of Californians, the commissioner shall request the Legislature to increase system funding either by increasing tax rates on the sources described in this division or from other revenue sources.

140324. (a) Default, underpayment, or late payment of any tax or other obligation imposed by this division shall result in the remedies and penalties provided by law except as provided in this section.

(b) Eligibility for benefits under Chapter 4 (commencing with Section 140400) shall not be impaired by any default, underpayment, or late payment of any tax or other obligation imposed by this chapter.

140325. The agency and the commissioner shall be exempt from the regulatory oversight and review procedures empowered to the Office of Administrative Law pursuant to Chapter 3.5 (commencing with Section 11340) of Division 3 of Title 2 of the Government Code. Actions taken by the agency, including, but not limited to, the negotiating or setting of rates, fees, or prices, and the promulgation of any and all regulations, shall be exempt from any review by the Office of Administrative Law, except for Sections 11344.1, 11344.2, 11344.3, and 11344.6 of the Government Code, addressing the publication of regulations.

8 *to provide reciprocal coverage for temporary visitors.*

9 *140404. All persons eligible for health benefits from*  
10 *California employers but who are residing in another jurisdiction*  
11 *shall be eligible for health benefits under this division providing*  
12 *that they make payments equivalent to the payments they would be*  
13 *required to make if they were residing in California.*

14 *140405. Unmarried, unemancipated minors shall be deemed*  
15 *to have the residency of their parent or guardian. If a minor's*

18 *establish his or her own residency.*

19 *140406. (a) An individual shall be presumed to be eligible if*  
20 *he or she arrives at a health facility or clinic and is unconscious,*

32 *Code, providing for involuntary commitment, shall be presumed*  
33 *eligible.*

35 *emergency medical treatment and active labor shall comply with*  
36 *those provisions.*

~~140002. This division shall be liberally construed to accomplish its purposes.~~

~~140005. The Legislature finds and declares all of the following:~~

- 1     ~~(a) More than 6 million Californians lacked health insurance~~  
2 ~~coverage at some time in 2001 and 3.6 million had no health~~  
3 ~~insurance coverage at any time.~~
- 4     ~~(b) Since 2001, the number of uninsured Californians has risen~~  
5 ~~significantly.~~
- 6     ~~(c) More than 10 million Californians have no coverage for~~  
7 ~~prescription drugs. Millions of Californians lacking prescription~~  
8 ~~drug coverage are otherwise insured.~~
- 9     ~~(d) Efforts to control health care costs and growth of health care~~  
10 ~~spending have been unsuccessful.~~
- 11     ~~(e) Employers, retirement funds, and unions that offer and~~  
12 ~~negotiate for health insurance and benefits and individuals who~~  
13 ~~purchase health insurance are experiencing substantial increases in~~  
14 ~~health care costs and decreases in health care benefits.~~
- 15     ~~(f) Unstable and unaffordable rate increases have caused~~  
16 ~~significant economic hardship for California residents and their~~  
17 ~~employers.~~
- 18     ~~(g) Nearly 63 percent of all personal bankruptcies in the United~~  
19 ~~States are the result of health care costs.~~
- 20     ~~(h) California does not perform well on standard health~~  
21 ~~outcome measurements.~~
- 22     ~~(i) Unacceptable health access disparities exist by region,~~  
23 ~~ethnicity, income, and gender.~~
- 24     ~~(j) Eleven of California's rural counties have no health~~  
25 ~~maintenance organizations that provide coverage to the county on~~  
26 ~~a countywide basis and 21 rural counties no longer have a~~  
27 ~~Medicare+Choice HMO.~~
- 28     ~~(k) More than 80 percent of all Medi-Cal and uninsured patient~~  
29 ~~visits to emergency facilities are for conditions that could have~~

39 ~~uncompensated care totaled five hundred forty million dollars~~  
40 ~~(\$540,000,000). Uncompensated care has caused 60 emergency~~

1 departments (15 percent of the departments in the state) to close  
2 since 1990.

3 (p) ~~The California Medical Association found in January of~~  
4 ~~2001 that increasing patient volume and a decline in the number~~  
5 ~~of emergency rooms have made multiple hour waits for emergency~~  
6 ~~care the norm and that ambulance diversion is becoming a~~  
7 ~~common method of dealing with emergency department~~  
8 ~~overcrowding. These developments pose significant dangers for~~  
9 ~~both insured and uninsured Californians.~~

10 (q) ~~A quantitative analysis performed by the independent~~  
11 ~~economic consulting firm, Lewin Inc., indicated that under a~~

14 (r) ~~According to the same report and numerous other studies,~~  
15 ~~by simplifying administration, achieving bulk purchase discounts~~
